

# Upgrading to latest version of MREC.

Once you have installed MREC you can upgrade to the latest version from the internet.  
**Before upgrading make sure you have taken a backup of your existing milk records.**

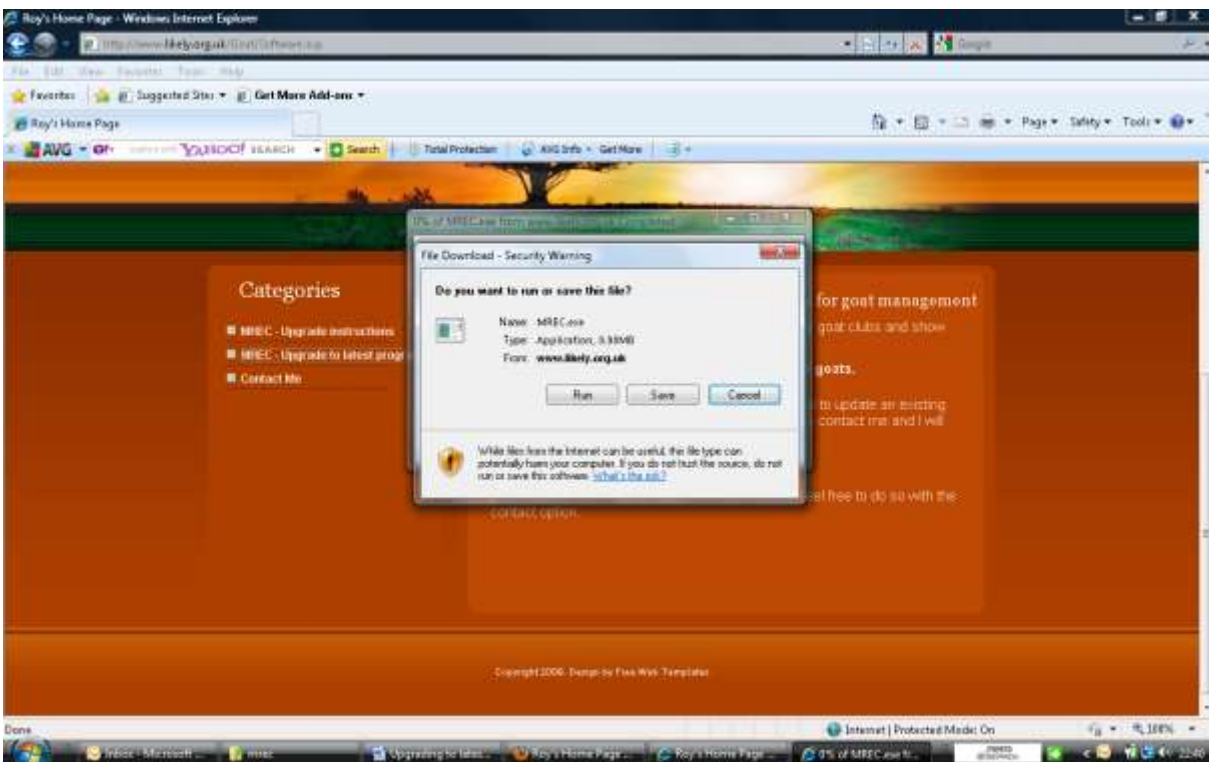

## To Upgrade MREC do the following:

First click on the link on the Website -- > **MREC – Upgrade to latest program**

You should get a pop up window, similar to below

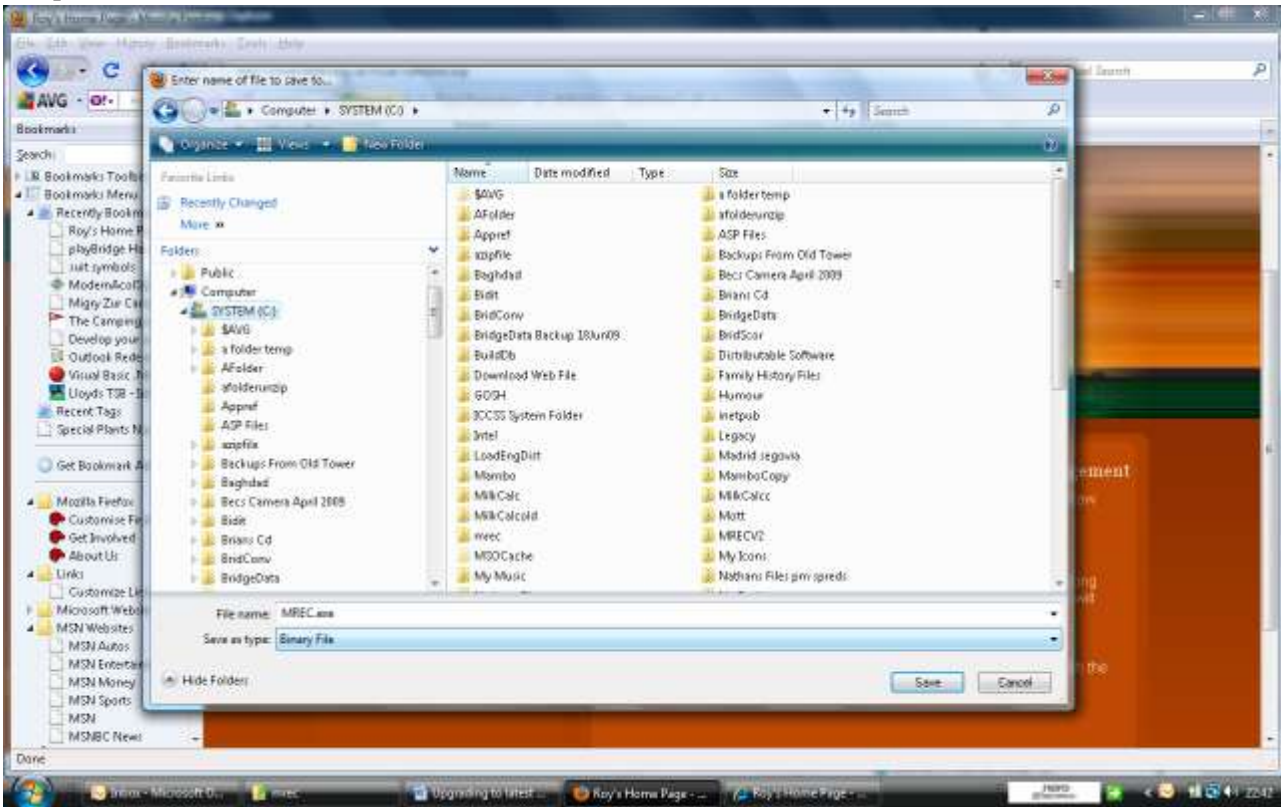

or

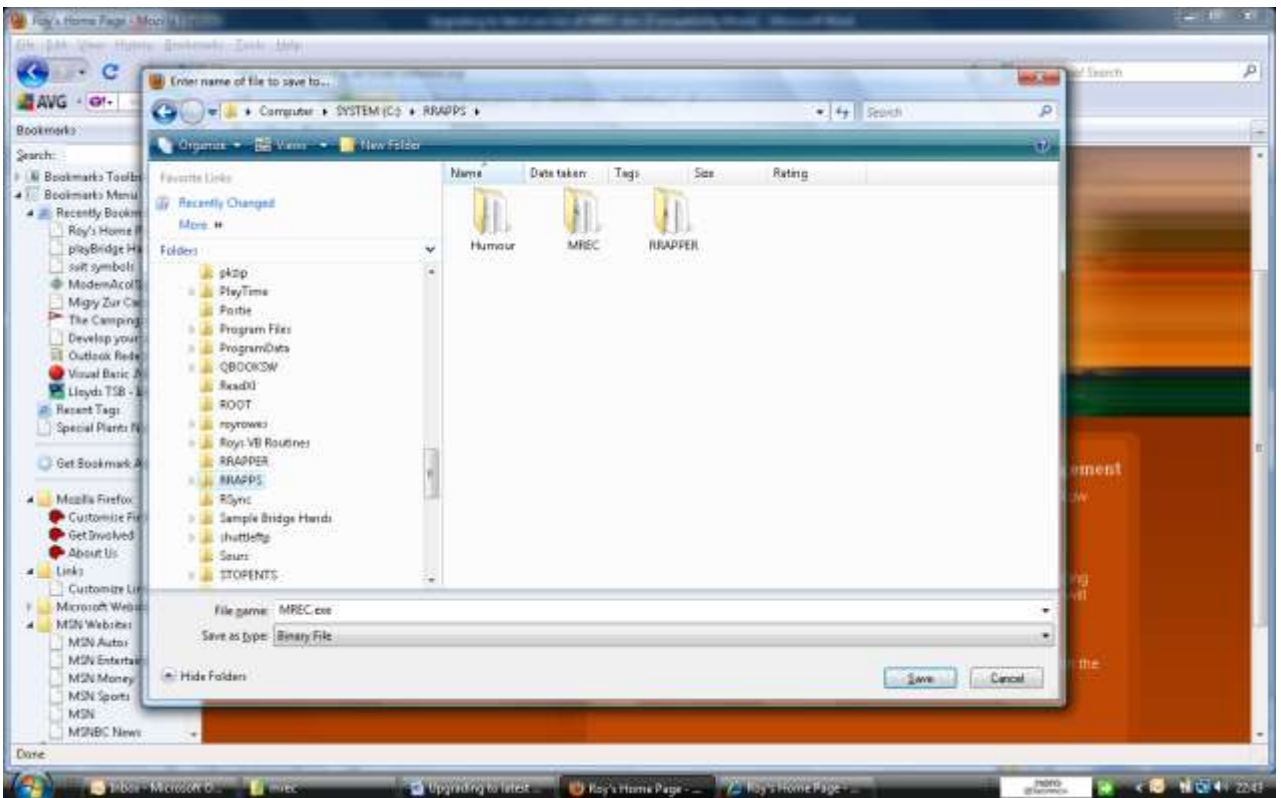

In either case select the “Save file” or “Save” option.

You will then be presented with a normal Windows Explorer screen displaying your directory structure for your computer, It will be similar to this

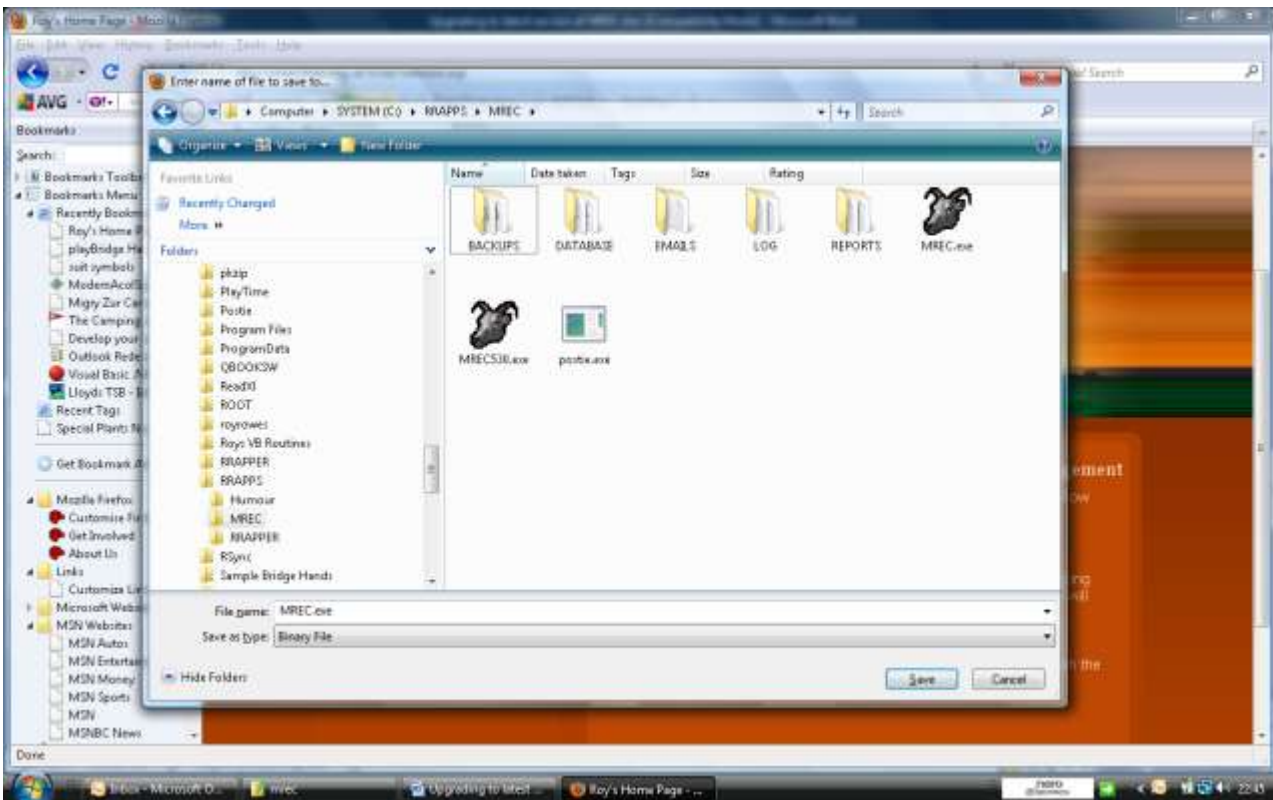

In the left hand panel scroll down/up to find the RRAPPS folder on your C drive and left click with the mouse that folder.

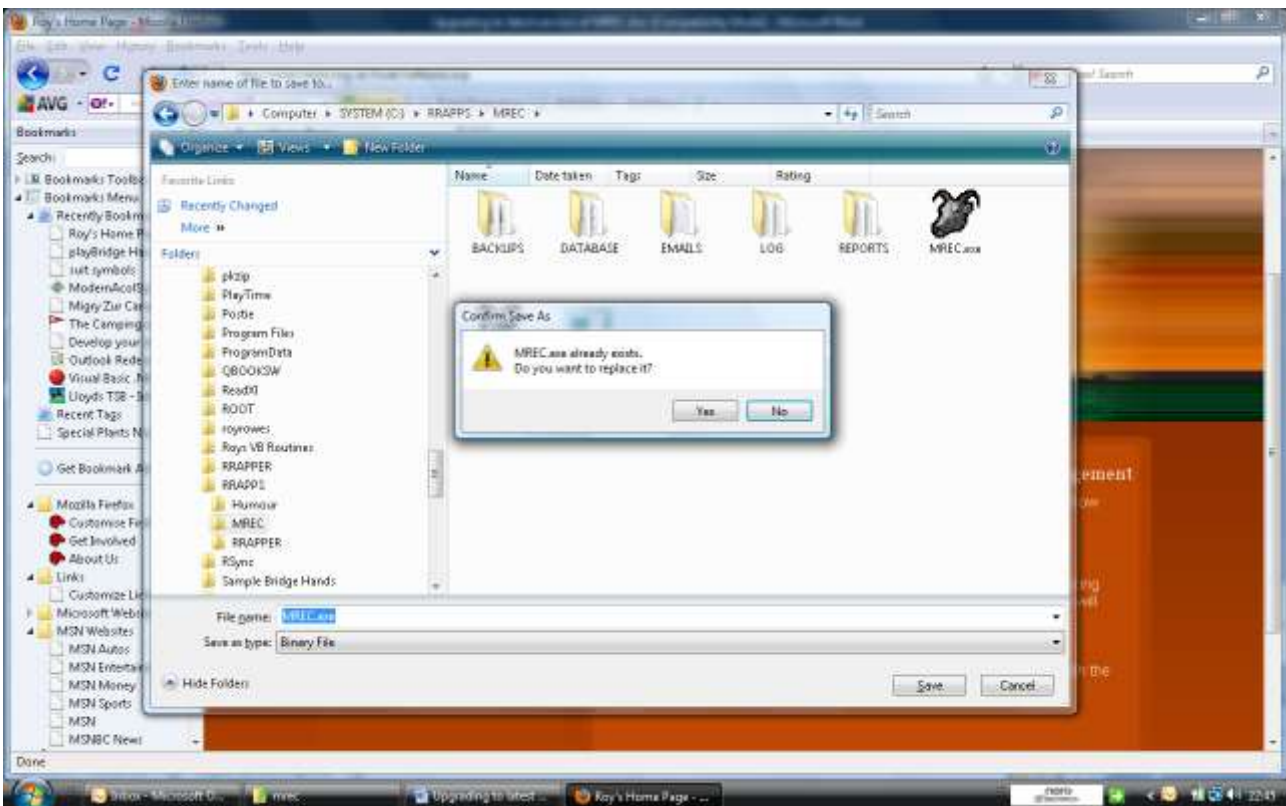

The screen should now contain

Click on the MREC folder in the right hand pane, and you should get the display overleaf

Click “Save”, and you will get the pop up message, saying that MREC.exe already exists – click Yes to replace.

After a few seconds you should get a message/pop up to say that downloads are complete. You can then run the latest version of MREC.
